

THE PROGLUER244

-  Simple to use, fast set-up, high output, semi-automatic box gluer
-  Assemble your boxes quickly, easily and efficiently
-  Highly productive running at up to 30 metres per minute – variable speed setting
-  Uses standard cold PVA adhesive – with transparent easy-clean reservoir
-  Simple to set up and to operate with minimum operator training
-  Programmable batch counter with alarm
-  All electric, single phase supply

Simple to use, fast set-up, high output, semi-automatic box gluer.

Designed and manufactured to operate with Autobox world leading box-making machines, the PROGLUER has been developed with high output and production versatility in mind. Requiring only single phase connection, the PROGLUER is simple to use and quick to set up.

The PROGLUER provides the ultimate in efficiency for all short run box making requirements.
